# INTRODUCTORY SECTION

# City of South Haven

City Hall • 539 Phoenix Street • South Haven, Michigan 49090-1499 Telephone (269) 637-0700 • FAX (269) 637-5319

August 31, 2006

Honorable Mayor, Members of City Council City of South Haven, Michigan

The comprehensive annual financial report of the City of South Haven for the fiscal year ended June 30, 2006, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City of South Haven. All disclosures necessary to enable the reader to gain an understanding of the City financial activities have been included.

The comprehensive annual financial report is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, management discussion and analysis, the City organizational chart and a list of principal officials. The financial section includes the financial statements and the combining and individual fund financial statements and schedules, supplementary information, as well as the independent auditors' report on the financial statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The comprehensive annual financial report complies with the reporting requirements of GASB 34.

The report includes all funds of the City of South Haven. The City provides a wide range of municipal services which include police protection; electric, water and wastewater services; the construction and maintenance of highways, streets, and other infrastructure; seasonal and transient marinas, boat launch and other recreation activities and cultural events. In additional to general City activities, the Building Authority is included in the reporting entity as a blended component unit. Component units are reported in a separate column in the financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position and results of operations. The Downtown Development Authority, three Local Development Finance Authority Districts and a Brownfield Redevelopment Authority are reported as separately presented component units. On January 1, 1996 the City of South Haven entered into a joint venture with the Townships of Casco, Geneva, and South Haven to provide fire protection and emergency medical services. The South Haven Area Emergency Services Authority (SHAES) is a separate legal entity and prepares separate audited financial statements. The City also collects tax revenues that are used to assist the operations of the South Haven Memorial Library, the South Haven Community Hospital and the South Haven Senior Services, all separate legal entities.

### **Government Structure, Local Economic Condition and Outlook**

The City of South Haven was incorporated as a Village in 1869 and as a City in 1902. The City is located in the southwest area of the State of Michigan where the Black River flows into Lake Michigan. The City of South Haven covers a land area of 3.5 square miles. With a 2000 Census population of 5,021, The City increases to over 15,000 during the summer boating and recreational season. In addition, the City provides electric, water and wastewater services in an area exceeding 60 square miles.

The City operates under the council-manager form of government. Policy making and legislative authority are vested in the City Council, which consists of a mayor and a six-member council. The City Council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees and hiring the City Manager. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the City, and for appointing the heads of City departments. The City is divided into three wards of which two members are elected from each ward to four-year staggered terms. Three Council members are elected every two years on a non-partisan basis. The mayor is elected to a two-year term.

The State Equalized Value of real and personal property in the City has increased from \$156,181,796 in 1996 to \$420,505,100 in 2005 (fiscal year 2006). This growth trend is continuing. State Equalized Value for the year beginning July 1, 2006 has increased to \$450,151,300. The area unemployment rate in June of 2006 was 6.5 percent compared to a State of Michigan unemployment rate of 6.3 percent. Downtown Retail District storefronts have less than a 2% vacancy rate.

The City has three business/industrial parks where new businesses continue to develop and existing businesses continue to expand. Edgeworks, a manufacturer of hi-tech glass cutting tools broke ground for a new manufacturing facility in the I-196 Business Park in FY 2006. Vanderzee Auto Sales purchased land in the I-196 Business Park and will open in the fall of 2006.

Residential development and investment remains strong. Riverwatch Condos, a 60-unit condo development along the Black River, was approved in fiscal 2006. Maple Gate, an 11-unit development started construction in FY 2006. Environmental cleanup of the former National Motors site is complete and residential redevelopment plans have been approved for 240 units. Infrastructure improvements for Sherman Hills, a 151-unit development were completed in FY 2006.

Menards purchased land for a new store in South Haven and is expected to break ground on their new facility in the fall of 2006 with an expected store opening in 2007.

The City of South Haven is enjoying an expanding profile as a national and international tourist destination and a place where visitors from major metropolitan areas continue to purchase second homes.

There are six area and regional commercial bank branches and thrift institutions within the City serving the banking needs of the City and its residents and visitors.

Interstate 196 traverses the City with connections north and east to Grand Rapids and Lansing and south to Interstate 94. State highway M-43 connects South Haven to Kalamazoo area markets and the campus of Western Michigan University.

Lake Michigan Community College has a campus in South Haven and has partnered with Western Michigan University to offer classes in South Haven.

### **Major Initiatives**

<u>For the Year.</u> In the 2005-2006 operating budget, the City established the areas of Public Works Infrastructure; Economic Development; Technology; Public Safety; Intergovernmental Relations and Parks and Recreation as priorities. These areas were addressed through attention to:

- <u>Public Works Infrastructure</u> Reconstruction of Baseline Road and a portion of Quaker Street was completed in fiscal 2006. Phase 1 of Superior Street reconstruction started in fiscal 2006. Much of the sewer system was upgraded with Cured in Place Pipe (CIPP).
- Economic Development In fiscal 2006 the City marketed the I-196 Business Park, along with vacant buildings in the community. The City of South Haven continued marketing the former public works property located along the Black River. A development agreement was reached for the 38,000 sq. foot former Bohn property located in the downtown area and owned by the City. Continued development and planning efforts for this site are anticipated during fiscal 2007. The City of South Haven worked closely with State and business officials to secure a purchaser for the DSM Inc. facility.
- Public Safety A substantial commitment of resources was directed to the support of public safety in fiscal 2005. The Police Department and Dispatch Services constituted \$1,923,513 of the General Fund budget during the year. Payment to the South Haven Area Emergency Services Authority (SHAES) for fire and emergency services totaled \$495,302 from the General Fund. In total, over 48 percent of the General Fund operating budget was devoted to police and fire protection. In addition, expenditures from the separate Narcotics Fund were in excess of \$194,000. The Narcotics Fund financed the South Haven Police Department continued participation in the Southwest Enforcement Team (S.W.E.T.)
- <u>Intergovernmental Relations</u> The City has continued to work with the Townships of Casco, South Haven and Covert to provide water and/or sewer services to the areas surrounding the City of South Haven. These expansions have been steady and ongoing since the City entered into an intergovernmental agreement for services in 1995. Negotiations were completed in fiscal 2001 for a five-year renewal (options to renew up to 25 years) of the South Haven Area Emergency Services Authority (SHAES) agreement. This agreement provides fire and emergency services for the City of South Haven and the Townships of Geneva, South Haven and Casco.

- <u>Parks and Recreation</u> The City-owned portable ice rink was open during the winter months in the Huron Street Parking lot.
- <u>Technology Improvements</u> The City of South Haven improved its website to increase in
  usability and interactivity. Assessing records, agendas, minutes and other City records are
  now accessible via the Internet. The City's computer systems were upgraded to improve
  performance and reliability. City Council started receiving Council Agendas in electronic
  format.

<u>For the Future</u>. The 2006-2007 operating budget places emphasis on Infrastructure Improvements, Capital Projects, Economic Development, Technology Improvements and Recreation.

- <u>Infrastructure Improvements</u> The City will be using the City's Street millage and County Road millage to pay for extensive street improvements. Phase I of the Superior Street reconstruction will be completed in FY 2007. Phase II of Superior Street reconstruction will take place in 2007. Reconstruction of road and utilities on Black River Street will take place in fiscal 2007. Future needs of the City's water plant and water distribution system will be studied in 2006-07.
- <u>Capital Projects</u> The City will work on the redevelopment of City owned land along the Black River that was previously used by the Public Works Department. This riverfront property lies within the City's DDA District. It is anticipated that this process will take several years.
- <u>Economic Development</u> The City of South Haven Brownfield Redevelopment Authority will continue working with five property owners on various grants and tax increment financing proposals in order that brownfield sites can become productive. Those sites include the Belgravia Building, the former Everett Building site, the National Motors site, all residential development projects, and two industrial projects Wyckoff and Michigan Aluminum Alloys.
- <u>Technology Improvements</u> The City will also work to improve on-line access to Assessing records, Tax records, Council Minutes and Agendas and other City documents. Council chambers will be renovated to improve the broadcast quality of City meetings.
- Recreation The City will work to secure funding to purchase real estate for the development of a regional recreation center. A larger ice rink will be purchased and in operation during the winter months.

### **Financial Information**

Management of the City of South Haven is responsible for establishing and maintaining internal control designed to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgements by management.

<u>Single Audit.</u> As a recipient of federal and state financial assistance, the City of South Haven is also responsible for ensuring that adequate internal control is in place to ensure and document compliance with applicable laws and regulations related to these programs. This internal control is subject to periodic evaluation by management staff of the City. The City was not subject to a Single Audit for the fiscal year ended June 30, 2006.

<u>Budgetary Controls.</u> The City maintains budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of the General Fund, Special Revenue Funds and Debt Service Funds are included in the annual appropriated budget. The level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is at the activity level. As demonstrated by the statements and schedules included in the financial section of this report, the government continues to meet its responsibility for sound financial management.

<u>Debt Administration</u>. The ratio of net general obligation debt to State Equalized Valuation and the amount of bonded debt per capita are useful indicators of City debt position to municipal management, citizens and investors. Data for fiscal year 2005-2006 and the previous four fiscal years are as follows:

| JUNE 30, | NET GENERAL<br>OBLIGATION<br>BONDED DEBT | RATIO OF NET<br>BONDED DEBT TO<br>STATE<br>EQUALIZED<br>VALUE (50% OF<br>MARKET VALUE) | NET BONDED DEBT PER CAPITA (2000 CENSUS) |
|----------|--|--|--|
| 2006     | \$ 9,250,000                             | 2.19%  | \$1,832                                  |
| 2005     | 9,705,000                                | 2.45   | 1,925                                    |
| 2004     | 10,155,000                               | 2.94   | 2,015                                    |
| 2003     | 10,570,000                               | 3.35   | 2,098                                    |
| 2002     | 5,140,000                                | 1.83   | 1,017                                    |

Tax supported debt remains well under 10 percent of SEV, which is a often a benchmark used by credit rating agencies.

In October of 2001, Standard and Poor's gave the City of South Haven's General Obligation Debt an A- rating.

In December of 2002, Standard and Poor's and Fitch Ratings gave the City of South Haven's General Obligation Debt an A rating.

The Rating Committee of Moody's Investors Services reviewed and assigned an A3 rating for the City of South Haven Electric Utility System Revenue bonds in December 1999.

Based on a 2005 State Equalized Value (SEV) of \$420,505,100, the legal debt margin of the City for special assessment bonds exceeds \$50,000,000 and for general obligation bonds the legal debt margin is over \$31,000,000.

<u>Cash Management</u>. Cash temporarily idle during the year was invested in bank demand deposits, certificates of deposit, commercial paper, obligations of the U.S. Treasury, and U.S. Government agencies as permitted by State law and City policy. The maturities of investments generally range from 3 months to 5 years. The average yield on investments for the year was 3.74 percent, compared to 2.47 percent in fiscal year 2005. Investment income was \$583,790 for the year.

<u>Risk Management</u>. As of June 30, 2006, the City of South Haven participated in two public entity risk pools. The Michigan Municipal Risk Management Authority pool provided insurance coverage for liability, auto, crime, and property damage risks. The Michigan Municipal Liability and Property Pool provided coverage for workers' compensation.

### Other Information

<u>Independent Audit</u>. State statutes require an annual audit by independent certified public accountants. The accounting firm of Rehmann Robson was selected by the City of South Haven to perform the June 30, 2006 audit. The auditors' report on the financial statements and combining and individual funds statements and schedules is included in the financial section of this report.

Awards. The Governmental Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended June 30, 2005. This is the sixth consecutive year the City received this award. In order to be awarded a Certificate of Achievement, the City of South Haven published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that the current comprehensive annual financial report continues to meet the Certificate of Achievement program requirements and will submit it to the GFOA to determine eligibility for another certificate.

<u>Acknowledgements</u>. The preparation of these statements could not have been accomplished without the efficient and dedicated services of the entire staff of the City of South Haven. Credit should also be given to the South Haven City Council for their interest and support in planning and conducting the operations of the City of South Haven in a responsible and progressive manner.

Sincerely,

Kevin P. Anderson, City Manager

Marvin F. Hinga, Finance Director

### INDEPENDENT AUDITORS' REPORT

August 31, 2006

Honorable Mayor and Members of the City Council City of South Haven, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of South Haven, Michigan, as of and for the year ended June 30, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the management of the City of South Haven, Michigan. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of South Haven, Michigan as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis on pages 3-11 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of South Haven's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the City of South Haven's basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of basic financial statements and, in our opinion, are fairly presented, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Rehmann Lohan

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### **Management's Discussion and Analysis**

As management of the City of South Haven, we offer readers of the City of South Haven financial statements this narrative overview and analysis of the financial activities of the City of South Haven for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that is furnished in our transmittal letter, the financial statements and notes to the financial statements.

### **Financial Highlights**

- Reconstruction of Baseline Road.
- Completion Cured-in-Place Pipe upgrade to sewer system
- Reconstruction of a major portion of Quaker Street
- Phase 1 of Superior Street reconstruction

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the City of South Haven financial statements. The City of South Haven basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the City of South Haven finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the City of South Haven assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of South Haven is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash* flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of South Haven that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of South Haven include general government, public safety, public works, highways and streets, health and welfare, and recreation and culture. The business-type activities of the City of South Haven include electric, water, and sewer.

The government-wide financial statements include not only the City of South Haven itself (known as the *primary government*), but also legally separate component units for which the City of South Haven is financially accountable. Component units include the Downtown Development Authority, three Local Development Finance Authorities, and the Brownfield Redevelopment Authority. Financial information for these *component units* are reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 12-14 of this report.

**Fund financial statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of South Haven, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of South Haven can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of South Haven maintains 20 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the Sewer Rehabilitation Capital Projects Fund, each of which are considered to be major funds. Data from the other 18 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City of South Haven adopts an annual appropriated budget for its general, special revenue, and debt service funds. Budgetary comparison statements or schedules have been provided herein to demonstrate compliance with those budgets.

The basic governmental fund financial statements can be found on pages 15-19 of this report.

**Proprietary funds.** The City of South Haven maintains 2 different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of South Haven uses enterprise funds to account for its Electric, Water and Sewer operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City of South Haven various functions. The City of South Haven uses an internal service fund to account for its Motor Pool, Information Services, and Self-insurance operations. Because this service predominantly benefits governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the enterprise operations of which Electric, Water, and Sewer are considered to be major funds of the City of South Haven.

The basic proprietary fund financial statements can be found on pages 20-23 of this report.

*Fiduciary funds*. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City of South Haven's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statement can be found on page 24 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-47 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 48-78 of this report.

### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of South Haven, assets exceeded liabilities by \$35,109,610 at the close of the most recent fiscal year.

By far the largest portion of the City of South Haven net assets (59%) reflects its investment in capital assets (e.g., land, buildings, vehicles, equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City of South Haven uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of South Haven investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

| Net assets: Invested in capital assets, net of related debt Restricted | 2,648,904<br>974,769       | 2,225,731<br>849,964       | 17,899,141<br>770,311               | 3,592,607<br>17,402,624<br>294,997 | 20,548,045<br>1,745,080            | 19,628,355<br>1,144,961     |  |
| Unrestricted   | 3,278,781                  | 2,406,064                  | 9,537,704                           | 10,244,115                         | 12,816,485                         | 12,650,179                  |  |
| <b>Total net assets</b>  | <u>\$ 6,902,454</u>        | <u>\$ 5,481,759</u>        | <u>\$ 28,207,156</u>                | <u>\$ 27,941,736</u>               | <u>\$ 35,109,610</u>               | <u>\$ 33,423,495</u>        |  |

An additional part of the City of South Haven's net assets (5%) represents resources that are subject to external restrictions on how they may be used. The remaining balance (\$12,816,485) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of South Haven is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the previous year.

The government's net assets increased by \$1,686,115 during the current fiscal year. This growth is due to property tax growth, county road millage revenue, the extent of capital asset purchases, payment on long-term debt and positive returns on enterprise fund activities.

### Governmental activities

Governmental activities increased the City of South Haven's net assets by \$1,420,695, thereby accounting for 84% of the total growth in the net assets of the City of South Haven. Key elements in the change of net assets are as follows:

During the year a significant portion of governmental fund resources were utilized to purchase long-term capital assets and to pay down long-term debt. These long-term investments in combination with stable depreciation expense resulted in the current year increases.

### **Business-type activities**

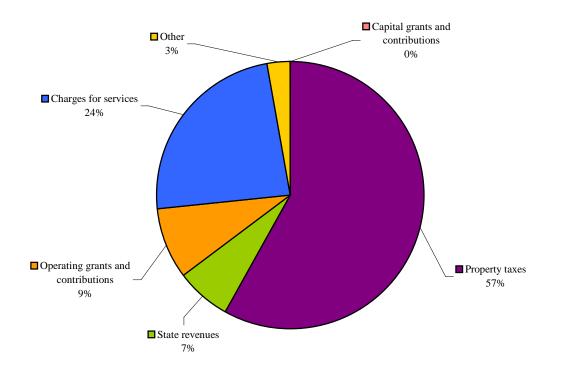

Business-type activities increased the City of South Haven's net assets by \$265,419, thereby accounting for 16% of the total growth in the net assets of the City of South Haven. Key elements of this increase are as follows:

The City electric fund all had an excess of revenues over expenditures for the year due to higher interest earnings and higher contributions to aid construction.

### Financial Analysis of the Government's Funds

As noted earlier, the City of South Haven uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of South Haven governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of South Haven financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

A surplus in the General Fund allowed money to be set aside for future capital projects. In addition, special assessment collections allowed repayment of governmental funds for previous construction projects. These factors resulted in an increase in Governmental Fund fund balances of \$370,846.

**Proprietary funds**. The City of South Haven proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The proprietary fund operations all resulted in an increase in net assets. Overall the net assets of the proprietary funds increased \$265,420.

### **General Fund Budgetary Highlights**

There are minimal differences between the original budget and the amended budget.

### **Capital Asset and Debt Administration**

### **City of South Haven Capital Assets**

The City of South Haven's most recent general obligation bond issue had a rating of A from both Standard & Poor's and Fitch Rating.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of the State Equalized Value. The current debt limitation for the City of South Haven is \$42,050,510.

Additional information on the City of South Haven long-term debt can be found in note 8 on pages 41-43 of this report.

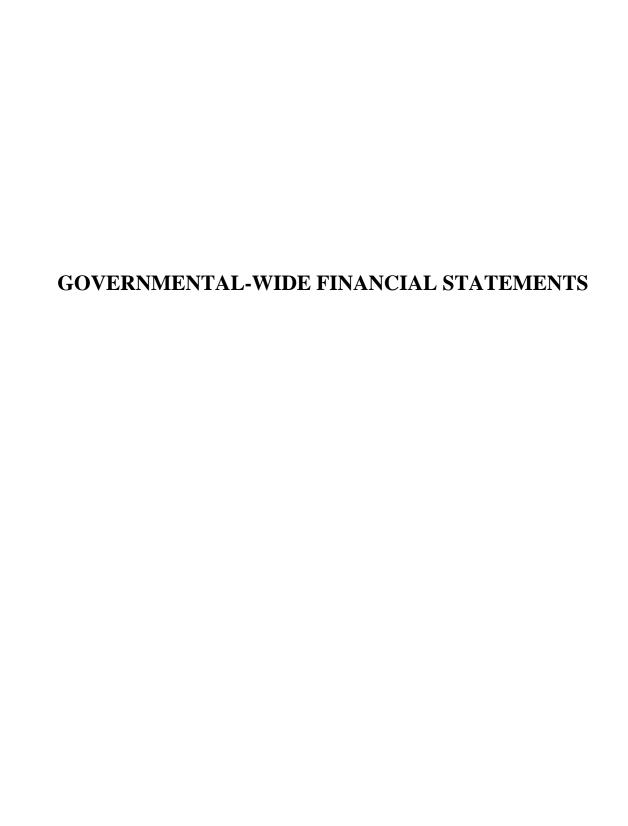

### **Economic Factors and Next Year's Budgets and Rates**

The economic factors utilized to create the 2007 budget included continued strong growth in the taxable value of city property and level state funding after several years of decline. In addition, the 2007 budget identifies local street paving and public safety as high priorities.

### **Requests for Information**

This financial report is designed to provide a general overview of the City of South Haven finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Marvin Hinga, Finance Director, 539 Phoenix Street, South Haven, Michigan 49090.

# Reconciliation of the Statement of Revenues, Expenditures and Change in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2006

| Net change in fund balances - total governmental funds  | \$<br>370,846          |
|---|------------------------|
| Amounts reported for <i>governmental activities</i> in the statement of activities are different because:   |                        |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. |                        |
| Add - capital outlay Deduct - depreciation expense  | 1,256,183<br>(917,646) |
| Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.  |                        |
| Add - principal payments on long-term debt  | 455,000                |
| Certain revenues are not recognized because they are not measurable and available.  |                        |
| Add - change in deferred long-term receivables  | 5,298                  |
| Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.  |                        |
| Add - net income from internal service funds  | 62,889                 |
| Add - increase in equity in SHAES   | 171,396                |
| Add - decrease accrued interest   | 23,264                 |
| Deduct - increase in the accrual for compensated absences   | <br>(6,535)            |
| Change in net assets of governmental activities   | \$<br>1,420,695        |

# NOTES TO FINANCIAL STATEMENTS

# NOTES TO FINANCIAL STATEMENTS

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of South Haven (the "City") conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the significant accounting policies.

# Reporting Entity

The City is governed by an elected mayor and six member council. As required by generally accepted accounting principles, these financial statements present the City of South Haven and its component units. The individual component units discussed below are included in the City's reporting entity because they are entities for which the government is considered to be financially accountable.

# Blended Component Unit

The Building Authority is governed by a Board that is appointed by the City Council. Although it is legally separate from the City, it is reported as if it were part of the primary government because its primary purpose is to finance and construct the City's public buildings.

#### **Discrete Component Units**

The following component units are reported within the component units column and rows in the government-wide financial statements. These component units provide services to the businesses located within the various districts. They are reported in a separate column to emphasize that they are legally separate from the City. Separate financial statements of these component units have not been issued.

- a. The Downtown Development Authority was created to correct and prevent deterioration in the Downtown district, encourage historical preservation and to promote economic growth within the downtown district. The Authority's governing body, which consists of nine individuals, is appointed by the City's Mayor and confirmed by City Council. In addition, the Authority's budget is subject to approval by the City Council.
- b. The three Local Development Finance Authorities were created to develop a program of ongoing industrial development, retention and expansion, reclamation of vacant industrial buildings and sites, environmental corrections, industrial park expansion, infrastructure improvements, as well as industrial and community promotion. The LDFA's governing bodies, which consists of ten members, are composed of seven members selected by the City Council, two members selected by the South Haven School Board, and one member selected by Van Buren County. In addition, the LDFA's budgets are subject to approval by the City Council.
- c. The Brownfield Redevelopment Authority accounts for "captured" tax revenue on specific properties within the City that have been identified and approved by the State of Michigan as brownfields requiring site reclamation. These revenues are used to reimburse property owners for expenses incurred for brownfield cleanup. The City Council appoints the governing body of the Authority and approves the Authority's budget.

The City's officials are also responsible for appointing members to the Board of the South Haven Memorial Library, but the City's accountability for this organization does not extend beyond making these appointments. The City Council appoints five of the voting board members. The Library Board is made up of a total of seven voting board members.

# NOTES TO FINANCIAL STATEMENTS

# **Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the City's primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for services. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

# Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements, except for agency funds, which do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. After March 1 of each year, the County pays the City for, and is responsible for collecting, any outstanding real property taxes as of that date. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures for debt service and compensated absences are recorded only when payment is due.

# NOTES TO FINANCIAL STATEMENTS

Property taxes, intergovernmental revenue, charges for services and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all the financial resources of the general government, except those required to be accounted for in another fund.

The Sewer Rehabilitation Capital Projects Fund is used to account for resources of the building authority being used for capital maintenance of the City's sewer system.

The City reports the following major proprietary funds:

The *Electric Enterprise Fund* accounts for the provision of electric services to the residences and businesses of the City and surrounding area. Activities necessary to provide such services include, but are not limited to, sales, administration, operations, maintenance and construction.

The *Water Enterprise Fund* accounts for the provision of water services to the residences and businesses of the City and the surrounding area. Activities necessary to provide such services include, but are not limited to, sales, administration, operations, maintenance and construction.

The Sewer Enterprise Fund accounts for the provision of sewer services to the residences, and businesses of the City and surrounding area. Activities necessary to provide services include, but are not limited to, sales, administration, operations, maintenance and construction.

Additionally, the City reports the following fund types:

#### **Governmental Funds**

The *Special Revenue Funds* are used to account for revenue from specific revenue sources (other than major capital projects) and related expenditures which are restricted for specific purposes by administrative action or law.

The *Debt Service Funds* are used to account for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

The *Capital Projects Funds* are used to account for the accumulation of resources and disbursements for construction projects of governmental funds.

The *Permanent Fund* is used to record the activity of the Cemetery Trust which provides funds for perpetual care of cemetery lots.

# NOTES TO FINANCIAL STATEMENTS

# **Proprietary Funds**

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the City is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges.

*Internal Service Funds* are used to account for data processing, motor pool equipment purchases, and insurance coverage provided to City departments on a cost reimbursement basis. The City is the primary participant in internal service fund activities.

# **Fiduciary Funds**

Agency Funds are used to account for assets held on behalf of outside parties, including other governments, and include payroll tax collections, current tax collections, and trust and agency funds.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed in both the government—wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges for services. The principal operating revenues of the City's internal service funds are charges to City departments for equipment utilization and information services. Operating expenses for the enterprise fund include depreciation on capital assets, administration, operations and maintenance. Operating expenses for the internal service funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenue and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

# NOTES TO FINANCIAL STATEMENTS

# **Property Taxes**

City property taxes are attached as an enforceable lien on property as of December 31. Summer taxes are levied July 1 and are due without penalty on or before September 19. Winter taxes are levied on December 1 and are due without penalty on or before February 14. The City bills and collects its own property taxes. Collections of property taxes and remittances for the state education fund and local school districts are accounted for in the Agency Funds.

# **Restricted Assets**

Certain resources set aside for repayment of enterprise fund debt and balances required by bond convenants, are classified as restricted assets on the statement of net assets because their use is limited by applicable bond covenants.

# **Investments**

Investments are stated at fair value at the balance sheet date.

# Receivables

All receivables are recorded at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

# **Inventories and Prepaid Items**

Camanal Eural

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when purchased rather than when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

# **Deferred Revenue**

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period or for resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

| Total deferred revenues   | \$ 95,958 |
|---|-----------|
| within one year   | 55,002    |
| Property taxes receivable Long-term receivables, not expected to be collected | 7,166     |
| Property taxes receivable Nonmajor Funds                                      | \$ 33,790 |
| General Fund  |           |

# NOTES TO FINANCIAL STATEMENTS

# **Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items purchased or constructed since the 1940's), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The City did not capitalize any interest on construction in enterprise funds during the fiscal year ended June 30, 2006.

Depreciation on capital assets (including infrastructure) of the primary government, as well as the component units, is computed using the straight-line method over the following estimated useful lives:

|                                | <u>Years</u> |
|--------------------------------|--------------|
| Land improvements              | 20           |
| Buildings                      | 40           |
| Office furniture and equipment | 3-5          |
| Vehicles                       | 5-10         |
| Public domain infrastructure   | 40           |
| System infrastructure          | 20           |
|                                |              |

# **Compensated Absences**

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

# **Long-term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, the long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

# NOTES TO FINANCIAL STATEMENTS

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# **Deposits and Investments**

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Investments for the government, as well as for its component units, are reported at fair value.

# **Receivables and Payables**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

# NOTES TO FINANCIAL STATEMENTS

# **Fund Equity**

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

# **Interfund Transactions**

Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions are reported as transfers.

#### 2. EXCESS OF EXPENDITURES OVER APPROPRIATIONS IN BUDGETARY FUNDS

# **Budgets and Budgetary Accounting**

Budgets are legally adopted for the General, Special Revenue Funds and Debt Service Funds on the modified accrual basis of accounting. Management can transfer appropriations within each fund without seeking Council approvals. Any amendments which increase total appropriations for a fund must have Council approval. Supplemental appropriations were necessary during the year. Appropriations lapse at year end.

P.A. 621 of 1978, Section 18(1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the City's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis, which is the legal level of budgetary control.

During the year ended June 30, 2006, the City incurred expenditures in excess of the amounts appropriated at the legal level of budgetary control in the following funds:

|                                 | Amended<br>Budget | Actual     | ]  | Over<br>Budget |
|---------------------------------|-------------------|------------|----|----------------|
| General fund Health and welfare | \$ 142,982        | \$ 147,143 | \$ | (4,161)        |

# NOTES TO FINANCIAL STATEMENTS

# 3. DEFICIT FUND EQUITY

At June 30, 2006 the City had deficit fund balances in certain funds as follows:

Sewer Rehabilitation Capital Projects Fund \$1,032,532
Non-major Governmental Funds:
Site Reclamation 2,424

Management plans to eliminate the deficits through transfers from other funds and the recognition of revenues in excess of expenditures in subsequent years. The City filed a deficit elimination plan with the State of Michigan in March of 2006.

# 4. CASH EQUIVALENTS AND INVESTMENTS

The captions on the government-wide and fund statements relating to cash and cash equivalents and deposits are as follows:

|                                    | Primary<br>Government | Component<br>Units | Fiduciary<br>Funds | Total        |
|------------------------------------|-----------------------|--------------------|--------------------|--------------|
| Cash and cash equivalents          | \$ 6,978,053          | \$2,300,983        | \$200,080          | \$ 9,479,116 |
| Investments                        | 3,202,079             | 100,000            | 234,406            | 3,536,485    |
| Restricted cash & cash equivalents | 239,878               | _                  | _                  | 239,878      |
| Restricted investments             | 665,079               |                    |                    | 665,079      |
| Totals                             | \$11,085,089          | \$2,400,983        | \$434,486          | \$13,920,558 |

These deposits and investments are located in fourteen (14) financial institutions located in Michigan in varying amounts. State policy limits the Treasurer's investing options to financial institutions located in Michigan. All accounts are in the name of the City and a specific fund or common account. They are recorded in City records at cost. Interest is recorded when earned.

Cash and investments are composed of the following at June 30, 2006:

| Total cash and cash equivalents | \$13,920,558 |
|---------------------------------|--------------|
| Petty cash                      | 2,838        |
| Investment                      | 2,901,948    |
| Money markets accounts          | 19,588       |
| Certificates of deposit         | 6,419,938    |
| Checking/Savings Accounts       | \$ 4,576,245 |

# NOTES TO FINANCIAL STATEMENTS

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned. State law does not require, and the City does not have, a policy for deposit custodial credit risk. As of year-end, \$9,779,663 of the City's bank balance of \$11,153,932 was exposed to custodial credit risk because it was uninsured and uncollateralized.

#### **Investments**

The City chooses to disclose its investments by specifically identifying each. As of year-end, the City had the following investments:

|                                      | Maturity                                | Fair Value   | Rating    |
|--------------------------------------|---|--------------|-----------|
| Daimler-Chrysler Commercial<br>Paper | 7/5/2006                                | \$ 312,444   | A2P2      |
| Daimler-Chrysler Commercial          |   |              |           |
| Paper                                | 7/28/2006                               | 293,704      | A2P2      |

<sup>\*</sup> Denotes that investment is backed or sponsored by the U.S. government and no rating is required to be presented.

# NOTES TO FINANCIAL STATEMENTS

The above investments do not include certificates of deposit.

#### Investment and Deposit Risk

Interest Rate Risk. State law limits the allowable investments and the maturities of some of the allowable investments as identified under "statutory authority" below. The City's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The maturity date for each investment is identified above for investments held at year-end.

Credit Risk. State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of the City's specific financial institutions, qualified mutual funds, and qualified external investment pools as identified in "statutory authority" below. The City's investment policy does not have specific limits in excess of state law on investment credit risk. The rating for each investment is identified above for investments held at year-end.

Custodial Credit Risk – Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the City does not have a policy for investment custodial credit risk. At year end, the City was not exposed to custodial credit risk, as all investments are held in the name of the City.

Concentration of Credit Risk. State law limits allowable investments but does not limit concentration of credit risk. The City's investment policy does not have specific limits in excess of state law on concentration of credit risk. All investments held at year-end are reported above.

# Statutory Authority

State statutes authorize the City to invest in:

- a. Bond, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- b. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- c. Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.
- d. Bankers acceptances of United States banks.
- e. Obligations of the State of Michigan and its political subdivisions that, at the time of purchase are rated as investment grade by at least one standard rating service.
- f. Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- g. External investment pools as authorized by Public Act 20 as amended through 12/31/97.

# NOTES TO FINANCIAL STATEMENTS

# 5. INTERFUND RECEIVABLES AND PAYABLES

The following are the interfund receivables and payables at June 30, 2006:

|                                  | Interfund<br>Receivables | Interfund<br>Payables |
|----------------------------------|--------------------------|-----------------------|
| Governmental Funds:              |                          |                       |
| Sewer Rehabilitation             | \$ -                     | \$1,033,000           |

The compensated absences represent the estimated liability to be paid to governmental fund type employees under the City's sick and vacation pay policy, net of the portion that has matured. The long-term portion of accrued sick pay is funded by the City's Employees' Retirement Sick Leave Special Revenue Fund. Under the City's policy, employees earn sick and vacation time based on time of service with the City. For governmental activities, accumulated employee benefits are generally liquidated by the general fund.

# NOTES TO FINANCIAL STATEMENTS

#### 9. RISK MANAGEMENT

The City is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation). The City participates in the Michigan Municipal League risk pool for claims relating to workers' compensation and the Michigan Municipal Risk Management Authority for all other claims.

The Michigan Municipal League risk pool program operates as a common risk-sharing management program for local units of government in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

The Michigan Municipal Risk Management Authority risk pool operates as a claims servicing pool for amounts up to member retention limits, and operates as a common risk-sharing management program for losses in excess of member retention amounts. Although premiums are paid annually to the Authority that the Authority uses to pay claims up to the retention limits, the ultimate liability for those claims remains with the City. The City has elected to participate in the Authority's stop loss program, which limits the paid losses, under most circumstances, to \$75,000 in any one year.

#### 10. CONTINGENCIES

The City is a defendant in several litigations. The civil suits will likely be covered by the City's liability insurance, and City Management considers the City's exposure under other suits to be immaterial. No provision for any loss has been made in the financial statements.

#### 11. POST-EMPLOYMENT BENEFITS

The City provides health care benefits to all full-time employees upon retirement, in accordance with labor contracts. Currently, eight (8) retirees are eligible. The City includes pre-Medicare retirees and their dependents in an independent health care plan, with 50 percent contribution required by the employee and 100 percent contributions by dependents. Expenditures for post-employment health care benefits are recognized as claims are paid. During the year, this amounted to approximately \$20,571.

#### 12. PENSION PLANS

# **Defined Benefit Plan**

# **Plan Description**

The City participates in the Municipal Employees' Retirement System of Michigan (MERS), an agent multi-employer defined benefit pension plan providing retirement, death and disability benefits covering all City employees. The System is administered by the MERS retirement board. Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. A publicly available financial report that includes financial statements and required supplementary information for MERS may be obtained by writing to the Municipal Employees Retirement System of Michigan, 1134 Municipal Way, Lansing, Michigan 48917 or by calling (800) 767-6377.

# NOTES TO FINANCIAL STATEMENTS

The City is required to contribute at an actuarially determined rate; the current year amount was \$ -o-. Participating employees are required to contribute to the Plan between four (4.0) and six (6.0) percent of gross wages, depending on collective bargaining agreements and the City personnel handbook. The contribution requirements of the City and employees are established and may be amended by the MERS Retirement Board.

For the year ended June 30, 2006, the City's annual pension cost of \$-0- for MERS was equal to the City's required and actual contributions. The required contribution was determined as part of the December 31, 2005 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included: (a) a rate of return on the investment of present and future assets of eight (8.0) percent; and (b) projected salary increases of four and one-half (4.5) percent per year compounded annually, plus a percentage based on an age-related scale to reflect merit, longevity and promotional salary increases. The actuarial value of MERS assets was determined on the basis of a valuation method that assumes the fund earns the expected rate of return and includes an adjustment to reflect market value. The City's unfounded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2005, the date of the latest actuarial valuation, was 30 years.

#### **Defined Contribution Plan**

The City provides a defined contribution retirement plan for the City Manager through the International City and City Managers Administration (ICMA). The contribution plan for the City Manager is determined through a contractual arrangement with the City and the contribution rate is currently set at fifteen (15.0) percent of the Manager's gross salary, less any vehicle allowance. The salary covered under the defined contribution plan for the period ended June 30, 2006 was \$91,280. The total contribution made to the plan was equal to the amount required of \$13,692.

# NOTES TO FINANCIAL STATEMENTS

#### 13. JOINT VENTURES

#### **Investment in the South Haven Area Emergency Services Authority**

The South Haven Area Emergency Services Authority (the "Authority") is a legally separate entity, created through a joint venture by area governments in Van Buren County, Michigan. The City of South Haven became a constituent member (owner) of the Authority in 1999.

The share of ownership for each participating municipality varies annually, based on utilization of services At June 30, 2006, the members of the authority are as follows:

|  | Percent<br>Of<br><u>Ownership</u> |
|--|-----------------------------------|
| Casco Township<br>Geneva Township<br>South Haven Charter Township<br>City of South Haven | 21%<br>14%<br>21%<br>             |
|  | <u> 100%</u>                      |

The City of South Haven is accounting for its investment in the Authority as a joint venture in accordance with GASB Statement 14. Information presented below is taken from financial statements of the Authority for the year ended December 31, 2005, audited by other auditors, whose report dated February 28, 2006, expressed an unqualified opinion on those statements.

Summary information of the City of South Haven's investment in the Authority for the year ended June 30, 2006, is as follows:

| is follows.  | Total<br>SHAES<br><u>Authority</u> | City of<br>South Haven<br>44%           |

| Net assets, end of year                                      | <u>\$ 2,314,438</u>                | <u>\$ 1,018,351</u>                     |

Complete financial statements for the South Haven Emergency Services Authority may be obtained at the Authority's administrative office.

South Haven Area Emergency Services Authority 930 Blue Star Highway South Haven MI 49090

# NOTES TO FINANCIAL STATEMENTS

# 14. RESTATEMENTS

Beginning net assets of governmental activities were decrease by \$185,973 to capitalize \$45,027 of capital assets that should have been recorded in the prior year, and to reclassify \$231,000 of long-term debt for which the City is primary liable from the component units to governmental activities.

Beginning net assets of the Brownfield Redevelopment were increased by \$239,757 to reclassify the aforementioned debt and to properly state the beginning fund balance of the operating fund which erroneously included \$243 of primary government resources in the prior year.

August 31, 2006

To the City Council of the City of South Haven South Haven, Michigan

We have audited the financial statements of City of South Haven for the year ended June 30, 2006, and have issued our report thereon dated August 31, 2006. Professional standards require that we provide you with the following information related to our audit.

### Our Responsibility Under Auditing Standards Generally Accepted in the United States of America

As stated in our engagement letter dated June 28, 2006, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement and are fairly presented in accordance with accounting principles generally accepted in the United States of America. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

As part of our audit, we considered the internal control of City of South Haven. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

#### **Significant Accounting Policies**

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we advised management about the appropriateness of accounting policies and their application. The significant accounting policies used by City of South Haven are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by City of South Haven during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

#### **Accounting Estimates**

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Management's estimate of the original cost and accumulated depreciation of its infrastructure capital assets is based on current replacement costs, and an assumed rate of inflation from the dates of original acquisition/construction. We evaluated the key factors assumptions used to develop the original cost and accumulated depreciation of the City's infrastructure capital assets in determining that they are reasonable in relation to the financial statements taken as a whole.
- Management's estimate of the useful lives of depreciable fixed assets is based on the length of time it is believed that those assets will provide some economic benefit in the future. We evaluated the key factors and assumptions used to develop the useful lives of those assets in determining that they are reasonable in relation to the financial statements taken as a whole.

#### **Audit Adjustments**

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. An audit adjustment may or may not indicate matters that could have a significant effect on City of South Haven's financial reporting process (that is, cause future financial statements to be materially misstated). In our judgment, none of the adjustments we proposed, whether recorded or unrecorded by City of South Haven, either individually or in the aggregate, indicate matters that could have a significant effect on City of South Haven's financial reporting process.

#### **Investments carried at Book Value**

The City has invested in various U.S. Government Securities with fixed maturities in excess of one year and carried such investments at the City's cost. Generally Accepted Accounting Principles require such investments to be carried instead at fair value. As these investments are intended to be held to maturity, management has elected not to recognize short-term fluctuations in market value in the financial statements. Accordingly, at year end, the City has investments in its general, electric, sewer and marina funds that exceeded their respective fair value by \$27,000, \$42,000, \$14,000 and \$1,000. Management has determined that the effect of these misstatements is not material to the City's financial statements taken as a whole.

#### **Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### **Consultations with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### **Issues Discussed Prior to Retention of Independent Auditors**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as City of South Haven's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

### **Difficulties Encountered in Performing the Audit**

We encountered no difficulties in dealing with management in performing our audit.

This letter and the accompanying memorandum are intended for the use of the City Council, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Rehmann Loham

### **City of South Haven**

### **Comments and Recommendations (Concluded)**

#### For the Year Ended June 30, 2006

During our audit we became aware of certain issues regarding internal control and financial reporting. This memorandum summarizes our comments and suggestions regarding these matters. This memorandum does not affect our report dated August 31, 2006 on the financial statements of City of South Haven.

### **Internal Controls – Segregation of Duties**

Management is responsible for establishing and maintaining effective internal control over financial reporting and the safeguarding of the City's assets. In establishing appropriate internal controls, careful consideration must be given to the cost of a particular control and the related benefits to be received. Accordingly, management must make the difficult decision of what degree of risk it is willing to accept, given the government's unique circumstances.

Events of recent years have given rise to a heightened awareness of the risks of fraud and abuse, especially in the governmental environment, where public accountability is at its highest. The purpose of internal controls is to provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are properly authorized and recorded. Any limitations on the effectiveness of a government's internal controls carries with it a greater risk of fraud and abuse.

As stated previously, the establishing and maintaining of internal controls is the responsibility of management. As the City's independent external auditors, we are specifically banned by professional standards from performing any management functions. In other words, the annual audit is <u>not</u> a part of the City's internal control structure, and cannot not be relied upon as part of *management's* systems to deter or detect fraud and abuse.

While there are, of course, no easy answers to the challenge of balancing the costs and benefits of internal controls and the segregation of duties, we would nevertheless encourage management to actively seek ways to further strengthen its internal control structure by requiring as much independent review, reconciliation, and approval of accounting functions by qualified members of management as possible. However we did note the following specific items which we would like to highlight:

### • Required Vacations for key Accounting Personnel

The City does not currently require its key accounting personnel to take annual vacations during which time another employee will perform his/her duties. While we understand that employees typically do take annual vacations, requiring this by policy would enhance internal control by ensuring that their duties are covered by another individual in their absence.

### • Petty Cash Access

The City does not currently restrict access to its petty cash boxes to a single custodian. We understand that this is for administrative convenience. However, limiting access further would enhance internal control.

### City of South Haven

### **Comments and Recommendations (Concluded)**

### For the Year Ended June 30, 2006

### • Investment Reconciliation

The City does not currently require monthly reconciliations of investments by an individual not responsible for managing the investments. Periodic reconciliations by a second individual would enhance internal control.

### • New Vendors

The City does not currently seek approval for new vendors from an individual not responsible for accounts payable. While all disbursements are reviewed and approved by the City Council, City Manager, and/or Finance Director, independent review and approval of new vendors in the accounts payable system would enhance internal control.

### • Capital Assets Inventory

The City does not currently inventory and monitor all capital assets that are susceptible to theft. Also the City does not currently require an annual review of capital asset additions and deletions by individual departments.
